

INTRODUCTION

Sorting Some Of The Wrights Of Southern Virginia is a multipart project. Each part will discuss a separate Wright family, beginning with the oldest known ancestor of that line. This work includes three parts:

Part XII: 1861 Harrison Wright Of Rockbridge County, His Wife Permelia (Watts) Wright, And His Descendants, and

Part XIII: 1860 Lewis Wright Of Lynchburg, His Wife Elizabeth (Hill) Wright, And His Descendants, and

Part XIV: 1877 Joseph Wright Of Bedford County, His Wife Ann (Hill) Wright, And His Descendants

The material for this project is organized in four sections. The first is the text, the second is the descendants charts, the third is the sources, and the fourth is a set of appendices.

The text provides full and literal transcriptions of all documents and sources found for the individuals discussed, as well as explanations of the significance of documents and the evidentiary logic for conclusions that are not obvious on their face. Five generations of descendants are discussed. Every researcher has faced the frustration of an asserted identification without a source reference or explanation of the conclusion or with a source reference which when consulted turns out to say something different than what was claimed. By providing full transcriptions of sources, I hope to allow the reader to reach their own conclusions regarding the identifications given and avoid the need to search out the source, even though this adds considerably to the length of the text. When secondary sources are relied on, the person providing the information is listed.

The descendants charts are organized with the oldest ancestor in the first column and each descendant from that ancestor in the remaining columns, to the extent known. The basic data of date and place of birth, marriage, residence, and death are given for each individual. The sources for that information are also given for each individual, using code numbers to the source list. I have limited the descendants chart to eight generations to reduce the public disclosure of information about living persons. I will be happy to share the information on later generations with interested researchers.

The source list provides first a chronological listing of sources as they were found or consulted and second a listing by geographic area and type of source, such as birth records or death records. The chronological listing evolved from my early years in research and mistaken efforts at coding the source. By the time I realized the inappropriateness of the coding format, there was too much information in a pre-

computer era to correct the early references. The reader is left with the result and my apology.

The appendices list all of the known Wright documents for a particular type of record for a county in chronological order and include an identification of the Wright named in the record. These appendices have been published separately by Heritage Books, Inc., and to date have included Wright birth, marriage, personal property tax, census, deed, land tax, death, cemetery, and probate records for Bedford, Franklin, Campbell, and Prince Edward Counties, Virginia, the City of Lynchburg, and Appomattox, Amherst, Nelson, Rockbridge, Botetourt, and Roanoke Counties, Virginia. Other counties will follow in the future. The appendices allow a cross referencing of the known records to the person discussed. This is to avoid having the same record cited for two different persons who happened to have the same name and to provide a list of documents that have not been associated with any person and which might be inconsistent with asserted identifications.

The numerous Wrights found in the same geographic areas necessitated an identification system to keep their identities separated. The system selected early on was to list a person by their year of death and county of residence at death, when known. For example, "1861 Harrison Wright of Rockbridge County" indicates that this was the Harrison Wright who died in 1861 in Rockbridge County. If no state is listed after the county, the state is Virginia; counties in states other than Virginia have a state listed after the county, as in "1876 William S. Wright of Highland County, Ohio." A parenthetical after the name indicates an identification of the person when a place of death is not yet known, as in "John Wright (Goochland County Carpenter)." A county in parentheses after the name indicates the county with which that person was most identified when no evidence of the place of death has yet been found, as in "John Wright (Montgomery County)."

These three works have been published together because I believe, but cannot yet document, that they were all brothers and sons of William Wright, Sr., (Bedford County) who was covered in Part XI. Hopefully, documentation will eventually be found that confirms this identification or Y-DNA sequencing will identify the families as related.

No work of this size is done without help. My friend Diane Smith has typed and revised over 100,000 pages of documents, text, and descendants charts, often from barely readable copies and nearly indecipherable handwriting. Together we have gone through almost every iteration of word processing program and media, including IBM, Wang, and Word Perfect, magnetic cards, 6½" floppies, 3½" floppies, flashsticks, and DOS and Windows up through number 7. The evolution of technologies that are incompatible or no longer accessible supports my faith in the printed word.

Numerous other researchers have shared their records and research, often providing the breakthrough which permitted the identification of a person. I have attempted to recognize those fellow researchers by identifying their contributions in the text and source list. The quotations from published works are made with the permission

of the author.

And my wife has patiently accepted the piling up of boxes of documents, notebooks filled with documents, text, descendants charts, and appendices and a work table piled with work to be done.

Thank you to all for your help and patience and I hope the reader finds that this work justifies the effort.

This is a work in process and I would be most interested in receiving additional information about any of the persons identified in these records in order to correct any errors or expand on the information given.

II. 1861 Harrison Wright Of Rockbridge County, His Wife Permelia (Watts) Wright, And His Descendants

The parents of 1861 Harrison Wright of Rockbridge County have not as yet been identified. Nevertheless, the associations between 1861 Harrison Wright and the family members and possible family members of William Wright, Sr., (Bedford County) make a connection with that family probable. However, the time range for the date of birth of 1861 Harrison Wright makes it possible that he was either a son of William Wright, Sr., (Bedford County) or a son of William Wright, Jr., and grandson of William Wright, Sr., (Bedford County). Unfortunately, it appears at this time that 1861 Harrison Wright did not have a strictly male line of descendants who could do Y-DNA sequencing to confirm the connection and so further research will be required to identify his parents.

The remainder of this work will discuss the documentation and evidence that has been found for 1861 Harrison Wright, his wife Permelia (Watts) Wright, and their descendants.

Charles Wright has been identified as a son of William Wright, Sr. (Bedford County) and through Charles Wright's association with Richard Wright, it is probable that Richard Wright was a son of William Wright, Sr. (Bedford County). This transaction and others set forth below indicate a probable family connection among all of these Wrights, and most probably a sibling relationship, but further research will be required to document that identification.

This record indicates that Harrison Wright was born in about 1786 and places his birth in Rockbridge County.

As set forth below, Susan Jane Elizabeth (Wright) Skidmore was a daughter of Harrison Wright and Permelia (Watts) Wright and the 1880 Census for Botetourt County, Virginia, listed Jane Skidmore in the David Skidmore household on June 8, 1880, and stated that her father was born in Bedford County, Virginia, and that her mother was born in Amherst County, Virginia. A birth in 1786 in Bedford County, Virginia, for Harrison Wright would be consistent with the residence of William Wright, Sr., (Bedford County, Virginia) and would be before the marriage of William Wright, Sr.'s son William Wright, Jr.

From the evidence set forth above and additional evidence set forth below, the children of Harrison Wright and Permelia (Watts) Wright were the following:

- 1) Susan Jane Elizabeth (Wright) Skidmore, born in about 1814 or 1815 in Bedford County, Virginia,
- 2) John Wright, born in about 1826 in Virginia,
- 3) George W. Wright, born in about 1829 in Rockbridge County, Virginia,
- 4) Mary P. (Wright) Ford, born in about 1820 in Virginia,
- 5) Lucy A. Wright, born in about 1825 or 1830 in Virginia,
- 6) Emily Frances (Wright) Ponton, born possibly on September 8, 1819, or in about 1831 or 1832 in Virginia, and
- 7) Sarah Agnes (Wright) Lucado, born on July 9, 1834, or in about in Virginia.

A. Susan Jane Elizabeth (Wright) Skidmore, Her Husband David Skidmore, And Her Descendants

Susan Jane Elizabeth (Wright) Skidmore was a daughter of 1861 Harrison Wright of Rockbridge County and Permelia (Watts) Wright. (1861 Harrison¹)

Botetourt County Marriages, 1770-1853 by John Vogt and T. William Kethley, Jr., listed the marriage record of Susan Jane Elizabeth Wright, daughter of

Harrison, and David Skidmore on December 16, 1839, at Botetourt County, Virginia, with William T. Jordan as surety and Alphonso Finney as witness:

"Wright

.....

Susan Jane Elizabeth & David Skidmore 16 Dec 1839; d Harrison b- William T Jordan wit- Alphonso Finney"

If Susan Jane Elizabeth (Wright) Skidmore was at least 16 years of age at the time of her marriage, then her date of birth would be probably before 1824.

Virginia, Marriages, 1785-1940 also listed the marriage of Susan Jane Elizabeth Wright, daughter of Harrison Wright, and David Skidmore on December 16, 1839, in Botetourt County, Virginia:

However, as set forth in the census records below, the age of Susan Jane may have been inadvertently placed in one age column to the right of the correct age and should have been between 1810 and 1820..

Father's Name	William Edwards
Mother's Name	Winnifra
Spouse's Father's Name	Thomas Ford

Although this record lists her father as Thomas Ford, this may have been a mis-remembering of the name of a father who had died when Emma Jane Ford was a very small child. The name of Emma J., her year of birth near to 1850, and the name of her mother as Mary indicate that this was the daughter of Mary P. (Wright) Ford and Garland Ford.

I, Emily Francis Ponton, residing at Mountain Falls in the County of Frederick in State of Virginia, do hereby apply for aid under an act of the General Assembly entitled "An act to give aid to soldiers, sailors, or marines of Virginia, maimed or disabled in the war between the States, and to the widows of Virginia soldiers, sailors and marines who lost their lives in said war in the military service." Although the birth date is listed as September 8, 1819, this is inconsistent with the other more contemporaneous records regarding the date of her birth and I suspect is a mistaken listing or a misreading of the gravestone.
