Employees of Bluefield Division reached 500,000 manhours without a disabling injury on March 24. Their record began June 8, 1974, and is continuing. Safety Director C. R. Wooten (right foreground) presents a cer-

tificate of merit to Bluefield Division Manager Jack Lloyd (left foreground) as staff members and supervisors

APCo appeals Virginia rate order to state supreme court

May 29 filed an appeal with the State Supreme Court of Virginia on the rate order issued by the Virginia State Corporation Commission on May 1. In that order the SCC denied 47% of the rate increase the company had requested.

Appalachian had filed for a \$36.2-million increase in its retail rates in Virginia in December 1974. The SCC's decision allowed the company approximately \$19-million.

"When we filed for a rate increase, we made what we believe was a strong case for the entire amount which is the minimum needed to permit the company to properly carry out its public service responsibilities," according to John W. Vaughan, executive vice president of Appalachian.

Vaughan pointed out that the amount granted Appalachian was considerably less than that recommended by any witness in the proceeding.

"The SCC Staff took the position that \$22,859,896 was required by the company in order to fair rate of return based upon 1974 results. In addition, the dissenting commissioner believed that an increase of \$25,583,565 was required to maintain the company's financial integrity," Vaughan added.

In its original rate filing the company had asked for a rate of return of 9.65%. The SCC decision provided for a rate of return of 8.4%. Vaughan compared this with two recent bond sales by the company at interest rates of 11% and 11-1/8%. "Obviously the rate of return allowed by the Commission is inadequate in the present inflationary period," he said.

Appalachian Power Company on Particulars of Appalachian's appeal will be detailed in a brief to be filed later with the Court.

> The \$19-million rate increase granted Appalachian was placed into effect on May 9 and billing under the new rates will continue pending a decision by the court.

Blue Ridge case dismissed

Judge Eugene Gordon of the U. S. District Court for the Middle District of North Carolina last month dismissed North Carolina's request for a stay of the effective date of Appalachian Power Company's Federal Power Commission license for the company's proposed Blue Ridge Project.

Judge Gordon granted Appalachian Power's motion to dismiss the proceeding on the ground that the Federal Power Act gave the U.S. Court of Appeals for the District of Columbia exclusive jurisdiction over the

In another development last month, Federal Energy Adminis- The AEP System's total load achieve what the Staff termed a trator Frank G. Zarb stated his during the week ended May 14 support for Blue Ridge in a letter was the lowest such figure in to Congressman William C. Wampler and expressed opposition to "any legislative proposals to delay or preclude the project."

> Meanwhile, Appalachian Power, the FPC and the states of Virginia and West Virginia have filed reply briefs in the District of Columbia Court supporting the company's proposed two-dam, 1.8-millionkilowatt project on the New River.

> They were in response to a recent filing by North Carolina supporting its position that the company's license should be remanded to the FPC for further hearings.

Stock cost ties record

Ohio Power Company last month sold 400,000 shares of cumulative preferred stock par \$100 at a dividend rate of 14 per cent. This equals the highest dividend rate ever paid by an electric utility, also by Ohio Power in 1974.

Funds from the latest sale will be applied to the retirement of short term debt.

Early in May, Appalachian sold \$50-million of firstmortgage bonds at an 11 per cent dividend rate. Proceeds from the offering were used to refund a 9 per cent series of the company's first-mortgage bonds which matured June 1.

System load **down in 1975**

almost three years — since early August 1972. (Total load is the amount of electric power required to be available to serve customers during a given period of time.)

In the second week of May, AEP System customers required 1.302-billion kilowatthours, down 8.3 per cent from the comparable week in 1974. For the year to date (i.e. to May 14) the total load was running 3.6 per cent below the prior year's figure.

The week's figure was the lowest since the 1.275-billion kwh recorded in mid-summer of 1972.

In W. Va.

APCo requests surcharge on bills for air quality work at Sporn Plant

Appalachian Power Company has proposed a modest special charge on customers' bills to raise the money needed to meet air quality standards in connection with operation of its power generating units at the Philip Sporn Plant at New Haven.

The utility on May 21 filed with the West Virginia Public Service Commission an application for a small, temporary surcharge on electric bills of its retail customers in the state. From such additional revenues Appalachian would set up a special fund earmarked for the installation of highly efficient electrostatic precipitators for the control of fly ash emitted from its two 150,000-kilowatt units at the plant. The project would cost an estimated \$30.5 million and require about four years to complete.

The proposed surcharge is 0.875 mills (i.e. less than onetenth of a cent) per kilowatthour of electricity used, which, if approved by the PSC, would take effect July 1. (In 1974 the company's average residential customer in West Virginia used 7,799 kwh. The surcharge on this amount of electricity would be \$6.82 - or 57 cents a month.)

Appalachian told the PSC in its application that the surcharge approach was being proposed because of its "current inability to finance this project." Stating that the surcharge revenues would be segregated from its general corporate funds and used exclusively for the Sporn Plant air quality work, the company also proposed that the surcharge be terminated "upon completion of all disbursements required for the project."

In late February Appalachian had advised the West Virginia Air Pollution Control Commission that it was being forced to suspend its previously announced plans to install new pollution control equipment on its units at the Sporn Plant due to severe financial limitations that made it impossible to raise the money necessary for the work. The company has been under an order from the APCC requiring that the Sporn Plant be in compliance with emission limitations by June 30, and it has stated that, barring an alternative acceptable to both the APCC and the U.S. Environmental Protection Agency, such compliance can only be accomplished by shutdown of four of the plant's five generating units by that date.

Air Pollution Commission grants extensions at Cabin Creek, Sporn

At a public hearing May 22, Appalachian Power Company was granted a six-month extension at Cabin Creek Plant and a fivemonth extension at Philip Sporn Plant by the West Virginia Air Pollution Control Commission (APCC).

The extension granted at Cabin Creek will permit the burning of coal with an ash content of up to 15 per cent. Prior to an interim extension granted on April 9, the plant was restricted to coal with an ash content of not more than 9 per cent. The plant will continue to operate on a peak load basis and is staffed by two shifts, five days per week. Operation at other times to meet system contingencies is permissible.

Appalachian earlier had announced that the plant would be closed because of the price it must pay for higher-quality coal. The plant is scheduled to close permanently on or before July 1,

Appalachian also had previously announced it couldn't afford pollution control equipment at the Philip Sporn Plant and would have to close units 1-4 and lay off

200 workers on July 1, the date on which the primary standard on particulate emissions was to have taken effect. The APCC action extended the compliance date to December 1, 1975.

The APCC also agreed to hold in abeyance a threatened suit against Appalachian for alleged delays in installing pollution control equipment at Sporn. A major reason for the delay is to provide time for a financial investigation of Appalachian and Ohio Power by an independent firm to evaluate claims that the companies cannot afford more efficient pollution equipment at Sporn.

Also, the APCC has urged the West Virginia Public Service Commission to act "as expeditiously as possible" on Appalachian's request for a surcharge on customers' electric bills to pay for the cost of installing precipitators at Sporn.

The APCC approved the new compliance schedule for the installation of an electrostatic precipitator on Unit 5 at Sporn, to be in full compliance with Regulation II in September 1977.

Browning

Two employees receive degrees

Two employees, who continued their education while holding full-time jobs, have been awarded college degrees. L. E. Brammell, personnel supervisor for Kentucky Power's Ashland Division, received a master's degree in business administration from Morehead State University. C. Paul Browning, meter reader in Appalachian Power's Huntington Division, received a bachelor's degree in business administration from Marshall University.

Brammell, who was employed in 1965, holds a BS degree in industrial management from the University of Kentucky. Browning began his career in 1973 but has been working toward his degree since 1966.

Ashland's Quarter Century Club

reactivated, holds spring meeting

Contract awarded for precipitator

Site preparation work has been started for the installation of an electrostatic precipitator on Unit 5 at Philip Sporn Plant at Graham Station, W. Va. Unit 5 is a 450,000 kilowatt generating unit and the largest one at the plant.

The precipitator will be 99.7% efficient in removing particles resulting from the burning of coal before they can escape out the unit stack.

Union Boiler Company of Nitro, W. Va., was awarded the contract for the site preparation work, which is expected to be completed this summer. The precipitator, which will replace a less efficient one to meet West Virginia air quality standards, is scheduled to be completed by September 1977.

Financing of the precipitator on Unit 5 will be done through \$40million in tax-exempt pollution control revenue bonds to be issued by the Mason County Commission.

Rotenberry

Rotenberry is R/e & R/w head

Thomas A. Rotenberry has been promoted to superintendent of Appalachian Power Company's General Office Real Estate and Right of Way Department, succeeding W.E. Coleman, who retired June 1.

A native of Broadford, Virginia, Rotenberry is a graduate of National Business College and Virginia Polytechnic Institute and State University. He has done graduate work at the University of Virginia Extension, Roanoke. He was employed in 1962 as a business trainee in Roanoke and held the positions of budget and special reports analyst, tax accountant, administrative assistant to the executive vice president and administrative assistant in the Real Estate and Right of Way Department before being promoted to assistant R/e & R/w superintendent in 1972.

Philo Plant ceases operation

Ohio Power Company's Philo Plant, oldest of its nine electric generating stations, ceased operation on May 31.

Frank N. Bien, executive vice president, said that the action was taken as a necessary economy measure in light of the depth of the present recession and the lessened demand for electric* energy from Ohio Power's industrial customers.

Affected by the shutdown are 203 employees, including 45 supervisory personnel, and the plant's 280,000 kilowatts of generating capacity. Bien emphasized that Ohio Power "will do everything we can to place these employees in jobs elsewhere in the company.'

He explained that the 50-year-old Philo Plant was only being deactivated, not retired. "We are putting this plant in mothballs so that, if and when it is needed again, it will be readily available," he said. "We intend to keep it in operating condition and maintain it as part of the company's reserve capacity."

Orr helps stranded motorist

Orr

Johnny Orr, lineman A in the Washington County area of Abingdon Division, stopped to help a stranded motorist recently. The motorist, who turned out to be Mrs. Richard Messenger, wife of the Washington County administrator, was so appreciative that she wrote the following letter Abingdon Division the manager:

"I would like to compliment you on the high caliber of the men who drive your pickup trucks. Monday, around noon, while I was driving from Lynchburg to Abingdon, my car stalled suddenly on route 605. The first and only person to stop and ask if he might help was a kind and responsible man in an APCo truck. At my request, he reported my plight to the nearest Exxon station.'

"Since my car was stranded in the right hand lane of a two-lane state road, I was upset and neglected to ask his name. Please know, however, that I am deeply appreciative of your worker's willingness to take a few minutes to give aid to a stranded motorist. I thank you, as manager, and your unknown worker for enabling me to continue my trip without further incident through the tornado watch

MOVING UP

Billie J. Blair, former plant clerk senior at Kanawha River Plant has been promoted to office supervisor. She succeeds Eliza beth S. Kees, who resigned. Blair attended Capitol City Commercial College.

Fred K. Long, former safety co ordinator in Kentucky Power's General Office Personnel Depart ment, Ashland, has been pro moted to assistant personnel and office services supervisor at Big Sandy Plant. He will succeed Carl B. Burner, personnel and of fice services supervisor, upon his early retirement later this year Long holds an associate degree in engineering technology from West Virginia Institute of Technology.

Nathan E. Kirk, former personnel departmental assistant at Big Sandy Plant, has been promoted to personnel assistant in Kentucky Power's General Office Personnel Department, Ashland. He holds a BS degree in business from Pikeville College.

Howard O. Blackshire, Jr., former maintenance man A at John E. Amos Plant, has been promoted to maintenance foreman. He began his career at the plant in 1972.

Bill M. Angelo, former regional dispatcher in General Office Operations, Turner Regional Dispatch Office, has been promoted to assistant regional chief dispatcher at Turner. He succeeds Lenc Bianchinotti, who retired May 1.

Getting to know John Faust

Faust

"It certainly wasn't the best time to take over the management of a power company. Peak coal prices, the heating season and my promotion all arrived at the same time. I spent most of my time during the first few months answering high bill complaints, speaking to civic groups and preparing for a Public Service Commission hearing.

"But there were many rewarding moments too - such as calls and letters of encouragement from friends of the company who remembered the long years of good service and reasonable rates. And all of our employees pitched in and did a wonderful job handling customer complaints. I think that sometimes we really need a period of adversity to test our courage and prepare us for the challenges we must face in the future." This is how John E. Faust describes his appointment last fall to executive vice president of Kingsport Power Com-

It was no accident that brought Faust into the electric power business. His interest in electricity began as a boy when his

hobby was short-wave radio. "I first built battery-operated sets and stayed up all night many times picking up ham operators from all over the world. I made my spending money by repairing radios and later by wiring houses and repairing small appliances."

When Faust graduated from high school and entered the University of Tennessee, it was natural that he enrolled in electrical engineering. He was a sophomore when the attack on Pearl Harbor brought the United States into World War II. "I had just turned 18 and registered for the draft, so I decided to enlist. The army left me in school for another quarter and then sent me to Fort Belvoir for basic training in the Corps of Engineers. When this was completed, I was selected to go to Catholic University in Washington to continue my engineering education. After a year of accelerated study, I received an engineering certificate and was ready for an assignment. But the invasion of Europe was then being planned and soldiers were needed more than engineers. My entire class was assigned to an infantry division which was em-

barking for the invasion. We landed in France and fought across Europe to the Elbe River near Berlin where the war ended. Of the 40 men in my platoon, only 13 survived."

Faust returned to U. T. after the war to continue the study of electrical engineering and also enrolled in the industrial management curriculum. He graduated in 1948 with a double major and ranked in the top ten per cent of his class. "I was interviewed by many companies, but when Kingsport Power Company offered me a job as a power sales engineer, I knew this was what I wanted to do." He served as senior power sales engineer, executive assistant and assistant vice president before becoming executive vice president on November 1, 1974.

Faust grew up in the small town of Hilton in Scott County, Virginia. It was here that he met Marie Dye when he returned from the army in 1946 and they were married two years later. They have two children, both now attending college. John, Jr., 24, is married and will receive his M.B.A. from the University of Tennessee in August. He has also completed two years of law school and has been teaching economics at U.T. for the past year. Becky, 19, is a junior at Middle Tennessee State University.

Faust hestitates when asked about his hobby. "I guess I would have to say civic work because that's how most of my spare time is spent." The list is impressive. He served eleven years on the Kingsport School Board, the last nine as president. He is past president of the Jaycees, the Boys' Club, the Red Cross and the Tri-Cities Chapter, American Institute of Industrial Engineers. Presently he is a director of the Palmer Memorial Center for Crippled Children, Community Chest, Chamber of Commerce and Rotary Club.

The church is also an important part of the life of Faust and his family. He has held many leadership positions in the First Broad Street United Methodist Church, including two terms as chairman of its official board.

Looking to the future, Faust sees many problems but also many opportunities. "Our industry is facing extremely difficult times over the next few years, due in large measure to a lack of understanding by the public, and even by our own government, of the role electric power must play in maintaining our quality of life and improving our environment. But the AEP System has been built on a solid foundation and we have the resources, both in power supply facilities and in skilled, dedicated personnel, to survive and come back stronger than ever. We should face the future without fear and welcome the opportunity to meet any challenges and prove that we can overcome any difficulties."

Larry Terry initiates beautification of Virginia 419

Larry Terry plants the first tree in the beautification project on Virginia 419, assisted by Roanoke County Delegate Raymond Robrecht (left) and Mae Johnson, representing the Cave Spring District on the Roanoke County Board of Supervisors.

Virginia 419 in Roanoke County is becoming more beautiful because of the efforts of Larry Terry, 17-year-old son of Helen Terry, PBX operator, General Office General Services, Roanoke.

Terry explains, "I've thought for a long time that some trees and shrubs should be planted along the highway, but it looked as if nobody was going to do it." So he took it upon himself to remedy the situation.

After learning from the State Highway Department that a beautification project would be welcomed, he began soliciting money from merchants along the highway and others with an interest in the project. Finally he had collected \$800, enough to buy about 200 plants, and on May 13 Terry planted the first

tree at Tanglewood Mall.

Highway department workmen planted the rest of them within the next few days. After a story appeared in the Roanoke World News about Terry's efforts, he received numerous calls from individuals offering to donate money and trees.

The Sugar Loaf Garden Club in Roanoke County has agreed to take up the project and promote it in the years ahead.

How did Terry get interested in such a project? There are not many 17-year-olds who will set out to beautify a whole highway alone. "Nobody else was doing it," he said. "I've traveled around and seen what other areas have done along their highways. We should do it, too.'

Two freshman engineering students from Southwest Virginia Community College spent a day observing engineers at work in the Clinch River Plant Performance Department recently. Danilo Zevallos and William Cook were participating in the "engineer for a day" program sponsored annually during National Engineers Week by the Virginia Society of Professional Engineers. Zevallos, a native of Peru, is majoring in electrical engineering, and Cook, a Virginia native, is majoring in mining engineering. Performance Engineers Steve Terry and Jevene Bowling and Senior Performance Engineer Jim Cole showed the students how various tests are run at the plant and let them assist in running a routine performance test on plant equipment. From left, Bowling, Cook, Terry and Zevallos.

PEOPLE IN THE SPOTLIGHT

ASHLAND

Salt

Brian Saltz, son of Personnel Director J. G. Saltz, was elected second vice president of the Kentucky Young Historians Association and won a \$100 savings bond as first place award in essay. Brian, a junior at Paul G. Blazer High School, captained a team from the school which appeared on WCHS-TV's High School Bowl. He has been selected to attend Boys' State.

Evelyn Cassidy, wife of Retiree E. C. Cassidy, was honored at a birghday tea for her 39 years in Girl Scouting.

Mary Gesling, wife of Retiree W. D. Gesling, is general chairman of the Children's Activity Program at the Ashland YWCA. Mimi Shope, secretarial stenographer in GO Customer Services, was elected recording secretary of the YWCA board of directors.

Jack Keeton, classification clerk in General Office Accounting, was elected treasurer of the Ashland Jaycees.

John R. Matthews, son of R. E. Matthews, division manager, graduated from Holy Family High School.

Andre Beach, son of Mary Jane Beach, junior clerk in General Office, graduated from Greenup County High School.

Theresa Riley, daughter of the late Dana Riley, graduated from South Point High School.

Roger M. Cline, son of A. D. Cline, General Office customer services manager; John B. Slone, son of Wilbur G. Slone, engineer B; and Rebecca Lynn Bolner, daughter of Donald G. Bolner, working service foreman, graduated from Paul G. Blazer High School.

Cathy Jo Barnett, daughter of Dorothy Tucker, stores accountant in General Office, and Deborah Mabry, daughter of Retiree Otto Sanders, graduated from Boyd County High School.

Kemp Adkins, son of Lucy Adkins, general accounting clerk in General Office, and William Thimothy Daniels, son of Clay Daniels, stationman A, graduated from Russell High School. Richard Darrell Burnett, son of Calvin C. Burnett, general serviceman, graduated from East Carter High School.

Patricia Louise Matthews, daughter of R. E. Matthews, division manager, received a BS degree in nursing from the College of St. Teresa.

Kathy Steinmetz received a degree in elementary education from the University of Kentucky, and Sharon Stayton received a degree in special education from UK. They are the children of Waldo S. LaFon, executive vice president.

John Horton Via, son of J. H. Via, Jr., accounting manager, received BS degrees in business administration and journalism from Marshall University.

Mary Ruth Hopson, daughter of Carl D. Hopson, technician senior, received a BA degree from Eastern Kentucky University.

Thomas J. Moore, son of Gene Moore, division super-intendent, received a BA degree in journalism from the University of Kentucky.

ABINGDON

Jamie Crabtree, son of T. F. Crabtree, meter serviceman A, graduated from Virginia Polytechnic Institute and State University with a BS degree in math.

Gregory Cornett, son of Lorene Cornett, clerk trainee; Donna G. Cox, daughter of H. W. Cox, area T&D clerk; and George Fields, son of C. E. Fields, line foreman non-exempt; and Jane Sowers, daughter of Ralph Sowers, line foreman non-exempt, graduated from Gate City High School.

Vanessa Robinson, daughter of Dean Robinson, line foreman non-exempt, graduated from Marion Senior High School.

Scotty Self, son of Arthur Self, meter serviceman C, graduated from Clintwood High School.

Debbie McClellan, daughter of G. L. McClellan, area T&D clerk, graduated from Ervinton High School.

Graduating from Abingdon High School are **Jeff Rasnick**, son of John Rasnick, stationman A; **Mike Gregory**, son of Roy Gregory, line foreman nonexempt; **Lynn Snyder**, daughter of Sam Snyder, transmission foreman; **Beth Hughes**, daughter of James

Hughes, administrative assistant; and **John Sheffey**, son of R. A. Sheffey, Jr., engineering supervisor.

Shirley Landreth, wife of Don Landreth, engineer B, was elected secretary of the E. B. Stanley Elementary PTA.

R. R. Gregory, line foreman non-exempt, was elected second vice president of the Abingdon Elementary PTA.

Employees engaged in Little League baseball include: Hunter Thayer, coach of Minute-ette team in the senior little league; R. L. Trent, coach of Harwood team; R. H. Snodgrass, III, coach of Abingdon Yankees in the midget league; Don Landreth, purchasing agent, Abingdon Little League; and Prince Coleman, coach of Meadowview Methodist team, Glade Spring League.

Hugh Ferguson, Clyde Landreth, Mark Landreth, Brian Hicks, Buck Cumbow, Jimmy Hughes, Karen Wynegar and Chip Thayer are participating in the baseball program.

GLEN LYN

Mann

S. Sgt. Melvin W. Mann, son of Retiree Harry M. Mann, was selected outstanding airman of the year for 1974 in the 15th Weather Squadron. The 15th Weather Squadron, located at Scott AFB, has 19 weather detachments across the country from California to New Jersey. Mann has been recommended by the 15th WS commander to 5th Weather Wing as a nominee for the Military Airlift Command outstanding airman of the year award. As supervisor of the weather equipment maintenance section, Mann directs four maintenance technicians and oversees maintenance of highly technical weather equipment such as the storm detection radar, visibility measuring transissometers, rotating beam ceilometers, etc.

Terri Lee Albert, son of Charlotte L. Albert, chemist assistant; and Michael E. Harris, son of Everett V. Harris, chief chemist, graduated from Giles High School.

Barry E. Brown, son of James E. Brown, instrument maintenance mechanic B; W. Byron Jessee, son of Jackie F. Jessee, maintenance man; Jeffery S. Mullins, son of Robia Mullins, maintenance mechanic A; Laura Lee Pruett, daughter of Myron C. Pruett, utility man A; and Gary T. Ratliff, son of Robert B. Ratliff,

assistant plant manager, graduated from Narrows High School.

Lisa A. Brown, daughter of Dale E. Brown, instrument maintenance mechanic B; Gail M. Jackson, daughter of Harry P. Jackson, Jr., maintenance man; Steven L. Martin, son of Lee B. Martin, maintenance helper; Lucinda J. Spangler, daughter of Coonie Spangler, personnel supervisor; and Rebecca J. White, daughter of James M. White, switchboard operator, graduated from Peterstown High School.

Donald E. Buckland graduated from Virginia Polytechnic Institute and State University with a master's degree in forestry and wildlife. Gerald W. Buckland graduated from Ohio State University with a doctor of veterinary medicine degree. They are the sons of Donald A. Buckland, maintenance mechanic A.

Gerald L. Evans, son of George L. Evans, performance engineer senior, graduated from Princeton High School.

Donald K. Hall and Ronald K. Hall graduated from Bluefield State College with degrees in electrical technology. Teresa A. Hall graduated from Oakvale High School. They are the children of Dan E. Hall, switchboard operator.

Douglas G. Mullins, son of Robia Mullins, maintenance mechanic A, graduated from New River Community College as a machinist technician.

Harry F. Pruett, son of Myron C. Pruett, utility man A, is a drafting graduate of New River Community College.

Steven W. Wade, son of Walter S. Wade, maintenance man, graduated from Oakvale High School.

David M. White, son of James M. White, switchboard operator, received a BS degree in education from Concord College.

JOHN E. AMOS

Bayes

Richard Allen Bayes, a senior at Stonewall Jackson High School, placed first in the sheet metal area of vocational categories in competition sponsored by Vocational and Industrial Clubs of America at Ben Franklin Technical Center. In state competition held at James Rumsey Technical Center in Martinsburg, he was graded on a written test and complex project. Supplying his own tools and materials, Richard came out with a second place title and silver medal. He is the son of Richard G. Bayes, utility foreman.

Thomas Lee Slack, son of Bob by J. Slack, assistant shift oper ating engineer; Kathy Jo Brewer, daughter of Lon Robert Brewer Jr., unit foreman; and Andrea Lynn Sovine, daughter of James I. Sovine, maintenance man B graduated from Hurricane High School.

Michael Andrew Trawick, son of Andrew J. Trawick, operations supervisor, graduated from Nitro High School.

Gregory A. Griffith, son of William H. Griffith, utility operator A, graduated from Winfield High School.

CENTRAL MACHINE

Reedy

Cindy Reedy, daughter of A. O. Reedy, motor shop foreman, was elected West Virginia state president of the Future Homemakers of America. A junior at Point Pleasant High School and a student at Mason County Vocational Center, she represents the FHA on the Junior Fair Board. Cindy will attend the FHA Leadership Camp this month and in July will represent West Virginia at the national FHA convention in Washington, D. C.

Cynthia Witt was appointed to the National Honor Society at Sissonville High School. Beverly Witt was appointed to the National Junior Honor Society at Woodrow Wilson Junior High School. Both participated in a 20-mile walk-a-thon last month to raise money for a new church. They are the daughters of Motor Winder C. H. Witt.

CABIN CREEK

David Ray Hudnall, son of Paul F. Hudnall, maintenance man, graduated magna cum laude from West Virginia Institute of Technology with a BS degree in electrical engineering. An AEP Educational Award winner in 1971, he will be employed as an associate engineer with Lockheed Missiles and Space Company, Inc., Cape Canaveral, Florida.

Diane Briers, daughter of George E. Briers, plant manager, graduated from West Virginia University with a BS degree in psychology.

Mary Margaret McDaniel, daughter of W. R. McDaniel, office and stores supervisor, graduated magna cum laude from Marshall University with a bachelor's degree in business administration. She was an AEP Educational Award winner in 1971.

PHILIP SPORN

Ohlinger

Kim Ohlinger, daughter of W. A. Ohlinger, master maintenance man, was named an alternate to Girl's State. She was also inducted into the National Honor Society at Meigs High School, Pomeroy, Ohio.

Carl Wiles, personnel manager, was appointed a trustee of the Bend Area Rotary Club, New Haven, W. Va.

Joy C. White, daughter of G. C.

White, unit foreman, graduated from Meigs High School and will attend Ohio University.

Linda Gloss, daughter of E. H. Gloss, plant manager, received a BS degree in nursing from Ohio State University. She also has a BA degree in psychology from Miami University, Oxford, Ohio.

Jack Kaylor, son of E. E. Kaylor, maintenance foreman, received AB and BA degrees in art from Marshall University.

John R. Bumgarner, son of L. C. Bumgarner, maintenance foreman; Lisa Gail Scott, daughter of J. C. Scott, master maintenance man; Pam Gilland Huffman, daughter of R. M. Gilland, maintenance man; Tammy Lynn Hart, daughter of A. H. Hart, filter plant operator and sampler; Debra Marie Hoffman, daughter of B. G. Hoffman, crane operator; and Martha Jean Clark, daughter of C. T. Clark, crane operator, graduated from Wahama High School.

Rayanna Sue Cole, daughter of R. L. Cole, unit foreman; Deborah K. Taylor, daughter of P. E. Taylor, conveyor operator; and Richard A. Couch, son of W. R. Couch, unit foreman, graduated from Meigs Local High School.

Sara Beth Lutton, daughter of R. S. Lutton, master maintenance man: Charmaine K. Sauer, daughter of J. P. Sauer, tractor operator; and Robin Lynn Henry, daughter of E. E. Henry, maintenance foreman, graduated from Point Pleasant High School.

Donald Clayton Shaffer, son of F. E. Smith, filter plant operator and sampler, and Karen Sue Rhodes, daughter of R. G. Rhodes, master maintenance man, graduated from Southern Local High School.

Susan K. Gloss, daughter of E. H. Gloss, plant manager, graduated from Gallia Academy High School.

Timothy Michael McDaniel, son of E. McDaniel, maintenance man, graduated from Kyger Creek High School.

Deborah Lynn Boatright, daughter of R. H. Boatright, maintenance man, graduated from Eastern High School.

PIKEVILLE

Chester Smith, administrative assistant, was appointed to the advisory board of Prestonsburg Community College.

Lisa Mae Prater, daughter of Bruce Prater, head T&D clerk, graduated from Elkhorn City High

Robin Jan Helvey, daughter of Auborn Helvey, line foreman, graduated from Johns Creek High School.

Tammi Susan Justice, daughter of Everett Justice, working line foreman, graduated from Mullins High School.

Belinda Tibbs, daughter of Billy E. Tibbs, working line foreman, graduated from Millard High School.

William David Zoellers, son of W. W. Zoellers, customer services manager, graduated from Community Prestonsburg College and will attend the University of Kentucky this fall.

Bill E. Barnett, son of Bill Barnett, personnel supervisor, graduated as a doctor of medicine from the University of Kentucky Medical School and will do his residency in Florida.

James T. Bartley graduated from Pikeville College with a BS degree in accounting. Teresa L. Bartley graduated from Pikeville College with a BS degree in science. They are the children of Jerry Bartley, appliance service foreman.

SOUTHERN APPALACHIAN

Clark

Shirley Clark, daughter of Grace Clark, senior clerk and stenographer, Julian Office, won a first place trophy in dramatics at Rio Grande Community College, Ohio. She also won a third place trophy in drama at St. Peter's College, where students from 11 eastern states competed. A senior at Duval High School, Shirley is secretary of the National Honor Society, student council president, class vice president, and varsity cheerleader captain.

CLINCH RIVER

Buell Cook, Jr., son of Buell Cook, unit foreman, graduated from Clinch Valley College of the University of Virginia with a BA degree in history.

Patrick L. Thompson, son of Ben L. Thompson, shift operating engineer, graduated from Clinch Valley College of the University of Virginia with a BA degree in

Earl Douglas Jones, Jr., son of Ruth J. Noe, plant clerk senior, graduated from Southwest Virginia Community College with an AA degree in biology.

Garry E. Campbell, son of D. Earl Campbell, unit foreman, graduated from Southwest Virginia Community College with an AA degree in pre-engineering.

Employees' children graduating from Lebanon High School are Gary L. Jonas, son of Don Jonas, chemist; Sheila R. Sutherland, daughter of Parkis N. Sutherland, master maintenance man; Brenda J. Lowe, daughter of Charles L. Lowe, instrument maintenance man A; Celeste Abolin, daughter of T. W. Abolin, plant manager; Donna Trail, daughter of James R. Trail, maintenance foreman; and Beverly D. Puckett, daughter of Guy E. Puckett, unit foreman.

Also, Teresa J. Vance, daughter of Landon E. Vance, maintenance man; Paul L. Campbell, son of D. Earl Campbell, unit foreman; Curtis F. Richards, son of Carl E. Richards, shift operating engineer; and Nancy C. Parks and Robert Parks, Jr., children of Robert L. Parks, master maintenance man graduated from Lebanon.

Grove Junior High School. She was chosen to attend the Kanawha County Sheriff's Youth

Camp at Virgil Tate.

LYNCHBURG

Austin

Loretta Austin, daughter of Joseph M. Austin, custodian, was elected maid of honor for the Bedford County Bicentennial Program to be held July 4, 1975. A rising senior at Jefferson Forest High School, she has been awarded a scholarship to Hollins College.

Stephen L. Jamison, administrative assistant, was elected vice president of the Lynchburg Area Public Relations Association. He is on the campaign committee for the Junior Achievement local fund drive.

Paprika's Gala Brand, eightmonth-old black Doberman Pinscher owned and showed by Mrs. W. T. Martin, II, won first place in "puppy bitches" in the James River Kennel Club's B-OB match and second place in that category in the Danville Kennel Club show. Mrs. Martin is the wife of W. T. Martin, II, lineman A.

Lee Holley, daughter of Marjorie Holley, customer accounts representative C, graduated from Longwood College with a BS degree in accounting and economics.

Joan Byrd, daughter of Carlen E. Marsha St. John Clements, Sweet Briar College with a BA

> Daniel E. Harker, son of Jack D. Harker, electrical engineer, graduated from Brookville High School and will attend Central Virginia Community College.

A. Ronald Hodges, son of Ashby R. Hodges, Jr., planner senior, graduated from Virginia Polytechnic Institute and State University with a BS degree in mechanical engineering.

Bruce Pearson, son of Betty J. Pearson, residential advisor, graduated from E. C. Glass High School and will attend Virginia Military Institute.

HAZARD

Marshell Craft, daughter of Rex B. Craft, meter reader, graduated from Whitesburg High School.

Sharon Kay Smith, daughter of Earl L. Smith, truck driver-groundman, graduated from Dilce Combs High School. She is the recipient of the commercial award.

Denise Walters, daughter of Byron D. Walters, stores attendant, and Charles Glenn Yonts, son of Wesley Yonts, lineman A, graduated from Hazard High School.

Jerry Wes Yonts, son of Wesley Yonts, received a BS degree in social studies from Morehead State University.

Elizabeth P. Johnson, daughter of Clara B. Peters, secretarialstenographer, received an associate degree in applied science from Hazard Community College. She graduated with highest honor.

Wallace E. Cornett, Jr., son of Wallace E. Cornett, records supervisor, received a degree in business administration from Eastern Kentucky University.

William Scott Hays, son of Nolan A. Hays, technician senior, received a master's degree in English from Eastern Kentucky University and was honored by Phi Kappa Phi for having attained an overall grade of 3.75.

Byrd, stationman A, graduated daughter of Charlotte B. St. John, from the University of Kentucky stenographer, graduated from Pharmacy School, where she received the outstanding senior degree in economics. woman award.

KANAWHA RIVER

John F. Allen, son of Elsie I. Allen, clerk-stenographer, and Timothy N. Perry, son of C. N. Perry, unit foreman, graduated from Dupont High School.

Keith A. Briggs, son of B. B. Briggs, instrument maintenance man C; Gail L. Creasey, daughter of J. I. Creasey, instrument maintenance man B; John A. Rocker, II, son of J. A.

Edna Phillips' daily diaries record Pulaski County history

Nearly all important events which have occurred in Pulaski County during the past 35 years are recorded in the daily diaries kept by Mrs. Edna Phillips.

If you want to know anything about Pulaski County history, just ask Edna Phillips, wife of Claytor Retiree Kenneth C. Phillips. She can take you back through several decades just by consulting the daily diaries she has kept since 1939.

In addition, Mrs. Phillips has seven large photograph albums that date back to 1928, two scrapbooks with newspaper pictures of Pulaski County men who served their country during World War II, as well as a complete list of Pulaski County men who served during World War I and II. She also has seven other scrapbooks which contain clippings about weddings, deaths, births, anniversaries and other important events during the past 35 years. Including her daily diaries, she has 38 volumes.

On one occasion her diaries helped a neighbor win a court case. When this neighbor was building a house, he hired a contractor to do the framing and roofing and asked Mrs. Phillips to keep an eye on things. She agreed and made several trips to the construction site but never found anyone working. When the neighbor finally hired a second contractor to do the work, the original contractor sued for the entire amount of the contract. The contractor claimed he could not do the work due to weather conditions and other reasons. Mrs. Phillips was summoned as a witness in the case, and through testimony taken from entries in her diary, the judge dismissed the case.

Mrs. Phillips says, "I constantly get inquiries from my neighbors and friends about dates of births, deaths, weddings and other events. Sometimes it takes me all day to find what I'm looking for, but I always find it."

Mr. Phillips adds, "Now you see why I can't ever win a family argument. She has everything down in black and white".

WEDDINGS

Martha W. Buford, transmission clerk, General Office T&D Transmission, Bluefield, to John W. Thompson, III, March 22.

Marcia Ann Humphrey to Frank Eugene Salisbury, Ashland engineer B, April 26.

Lisa Jo Turley, daughter of Charleston Stenographer Metzel M. Turley, to John E. Smith, May 24.

Pennee Ann Hrenak to **Robert W. Sheaff, Jr.,** son of R. W. Sheaff, meterman A, General Office T&D Meter, Roanoke, April 5.

Vicky Lynne Maddox, daughter of Nowlin O. Maddox, Lynchburg meter serviceman B, to Gary Wayne Arrington, May 2.

Virginia R. Foster to **David H. Tingley,** Cabin Creek Plant chemist assistant, May 10.

Jane Marsh Stephenson to **John Sutherland Carrico**, son of Everette Carrico, Logan-Williamson general foreman, March 22.

Carolyn Gunter to **Kelvin Bradshaw**, meter reader at Fieldale, Roanoke Division, April 9.

Frances Darlene Howell to J. A. Gilmore, Philip Sporn Plant maintenance man, March 8.

Vera Josephine Wilson to James W. Johnson, Kingsport T&D clerk senior, March 30.

Linda Conner Bunn, junior bookkeeper, General Office Accounting, Roanoke, to Michael J. Kolnok, Jr., April 19.

Spangler awarded music scholarship

Spangler

Lucinda Jean "Cindy" Spangler has been awarded a four-year Benedum music scholarship for her performance in piano by Concord College. She is the daughter of C. L. Spangler, Glen Lyn Plant personnel supervisor.

Cindy was the 1974 state winner of piano competition sponsored by the West Virginia Music Educator's Association. For the past two years she has won the zone level of competition in the Bland Memorial Scholarship Program sponsored by the Lions Clubs of Virginia. Cindy has been accompanist for the Peterstown High School choir for five years and accompanied the Giles High Symphonic Chorale at their 1974 Christmas concert. She has been organist and pianist for choirs at Peterstown Baptist Church and is now organist at the First Baptist Church in Rich Creek.

A safety program entitled "What's My Accident?", directed by Lucious Oliver, clerk junior, was presented to Bluefield office and service building employees recently. Participating in the cast were: (front row, I. to r.) Theodore Stevens, draftsman; Martha Thompson, GO transmission clerk; Bob Edwards, meter reader; Steve Boothe, meter reader; and John Davidson, T&D clerk senior, all accident victims. Second row, I. to r. Joe Stinson, commercial representative, moderator; Mary Kirby, residential representative, accident victim; Patricia Hanley, office messenger; Dick Bowman, administrative assistant; Bob Farley, engineer B; and Jim Harmon, electrical staff engineer, all panelists. Back row, I. to r., Linda Wiley, stenographer, "Miss Safety"; Lucious Oliver; Bud Perdue, customer service representative, commercial announcer; Diana Bishop, T&D clerk, announcer; and Heber Stafford, records supervisor, timekeeper.

Seven Appalachian Power employees retire to the good life

COLEMAN

"Appalachian Power Company came into existence in March 1926, and I came to work on June 1 of that year. You might say I grew up with the company," reflects William E. Coleman, who retired June 1 as superintendent of the General Office Real Estate and Right of Way Department, Roanoke.

He continues, "My mechanical drawing teacher at Jefferson High School told me that Paul Smith, chief draftsman at Appalachian, was looking for some tracers. I went for an interview on my 16th birthday. This is the only job I've ever had. I've worked in the same department and the same location.'

When Bill came to work, his office was called the Engineering and Construction Department. "We worked with a little bit of everything in the engineering and construction field," he recalls. "We handled route layouts, surveying, design, transmission line construction, buying land and rights of way as well as substation construction. We built transmission lines over parts of Virginia, West Virginia, eastern Tennessee and eastern Kentucky, doing work for our affiliates. In those days, we got paychecks from different companies at different times.

After two years with Appalachian, Bill left to complete his education and returned in 1929 to the same department. For the next two years, he worked with R. B. Sinclair, now retired, drawing all of the topographic maps for the Claytor Hydro Project. They also prepared land maps in connection with condemnation of land for the project.

In the early 1930's when construction work was curtailed, the **Engineering and Construction** Department became the Real Estate and Right of Way Department. Bill adds, "We still continued transmission line surveying and mapping until after World War II when the Civil Engineering Department was set up."

In 1948 Bill became R/e and R/w superintendent and since then "our two major projects have been Smith Mountain and Blue Ridge. Really, the most challenging and exciting part of my career has been working with the Smith Mountain Project. We thought that was a very suc-

cessful operation. My major looking for something else?" regret is that we were unable to complete the Blue Ridge Project as scheduled."

He continues, "I am happy that I was fortunate enough to come to work for Appalachian, especially since I have been privileged to work with such a fine group of

Bill and his wife Rachel have no definite plans for retirement. He says, "I'm going to do a lot of fishing at Smith Mountain Lake, Claytor Lake and the Outer Banks of North Carolina. I've been trying to learn how to play golf for 40 years, and I haven't mastered it yet. I don't suppose I ever will, but I enjoy it. Mainly, I'm going to try to take it easy, but I'm not going to sit down and take it easy. I'm going to stay as active

VANCE

Linzie Vance, Cabin Creek Plant custodian, retired on permanent and total disability

A native of Breeden, West Virginia, Linzie began his career in 1948 as a laborer. His retirement plans include some travel with his wife Marie and "just relaxing and enjoying life". He likes to tinker with cars and work in his yard and with flowers.

DOUGLAS

"I've never worked any place said Helen Douglas, payroll clerk A in General Office Accounting, Roanoke, when she elected early retirement June 1. "I feel that this is the best company to work for; and, when you've got the best, why go three grandchildren.

Helen joined Appalachian Power in her hometown of Pocahontas, Virginia, shortly after graduating from West Virginia Business College in 1936. As the only girl there, she performed cashier duties, handled contracts and kept records for the line crews. Helen says, "I think it's an advantage to start out in a small place like that. It gives you a broad knowledge of the company."

After five years, she moved to the Payroll Department in the Welch District Office. She transferred with the department when it moved to Bluefield in 1953 and to Roanoke in 1960.

Helen has no definite plans for retirement except "stay home, be a housewife and enjoy myself". She attends Raleigh Court Presbyterian Church in Roanoke. She and her husband Jack have two children.

BOOTH

"The system has come a long way during my 36 years with the company," reflected David E. Booth, Lynchburg stationman A, upon his retirement June 1. He added. "When I first went to Reusens Hydro in 1939, that plant could carry the entire Lynchburg load — and had to quite often. Every thunderstorm seemed to cut us loose from the system. It isn't that way now, with loops and double circuits everywhere."

"I will never forget the flood in 1969 when the water was about 18 inches deep in the 34.5 kv vard at Reusens, and we had to put sandbags around the doors at the power house," he said.

"Since my wife died two years ago, most of my spare time has been spent cleaning house and working in the garden. I've found out that keeping house is a seven-day-a-week, 365-day-ayear job when you have to do it by yourself. Now that I am retiring, I can go back to spending more time hunting and fishing and brushing up on my recipes."

Dave plans to continue living in the house he built himself in 1958. He has one daughter and CARTER

R. L. Carter, Gate City area serviceman in Abingdon Division, elected early retirement June 1 after 28 years' service.

The Carter name is a familiar one throughout Appalachian. Ralph's late brother, Price Carter, was system transmission line superintendent, General Office T&D Transmission Section, Bluefield. Another brother, Jack Carter, also deceased, was administrative assistant at Clinch River Plant. The combined service of the three brothers totals 112 years.

Ralph was employed by the R. H. Bouligny contractors in Wytheville, Virginia, before joining the company in 1946 as a groundman in the old Bluefield/Clinch Valley District.

Ralph says, "I've worked for a good company and the retirement benefits are better than I thought, so that's why I decided to retire now." His wife Lois bought him a fishing rod and reel 15 years ago, and he wants to "try the rod for the first time, travel and maybe do some parttime work at my leisure". Active in the First Baptist of Gate City, Ralph plans more service in the church.

PRATHER

"I've enjoyed my 29 years with Appalachian. I think it is a great company, one of the best you could work for," said Cyrus Everette Prather, who was Roanoke Division stationman A before electing early retirement June 1.

Ed served in the Army Air Force during World War II and flew 26 missions as a gunner in a

B-24 bomber. He was decorated on several occasions, winning the Presidential Citation Award, four air medals and five battle

Ed recalls, "Following my discharge from service, my older brother John (now retired) was employed at the Niagara Hydro Plant and told me they were a man short in the Operations Department. I talked with Carl Smith, then hydro foreman; and, after Smith interviewed me, he arranged for me to see Bill Booker, then district manager, who hired me on at Niagara." When the plant closed down in 1954 for remodeling, Ed transferred to the T&D Department as a meter service helper and later worked as a groundman. In 1963 he became a stationman helper and was promoted to stationman C in 1965, stationman B in 1970 and stationman A in 1972.

Ed enjoys telling about a prank some of his co-workers played on him several years ago. "I had parked my car near the transformer platform adjacent to the company fence at the old Walnut Avenue Office. That evening one of the men I worked with chained my car to the fence and left just enough slack in the chain for me to pull out. Before I could stop, I took half the fence down. As you might imagine, that went over real big with the fellows."

He and his wife Dorothy have no definite plans for retirement, but may visit relatives in Florida. He wants to do some hunting and fishing, but mostly work around the house and garden. They are members of the Peters Creek Church of the Brethren in Roanoke.

BURGESS

"The company has always been good to me, and I've enjoyed working," said Woodrow Johnson Burgess, who retired June 1 as a stationman A in Charleston.

A native of Kanawha County, West Virginia, Woody began his career in 1943 as a laborer and has also worked as a rigger, maintenance man B and substationman B.

Woody plans to move to either Florida or Arizona for health reasons. He and his wife Marie also want to do some traveling. They have two children, one of whom lives in Texas.

Will you know what to do if a person chokes on food?

Most of the 3,900 deaths which occur in this country each year by choking on food could be prevented if someone present at the time knew the Heimlich Maneuver, a simple technique developed by Henry J. Heimlich, MD, director of surgery at Jewish Hospital in Cincinnati, Ohio.

It is important to recognize the symptoms of someone choking on food. First, though the victim is conscious, he cannot speak. He turns pale, then blue or black, shows distress and will collapse

quickly unless aided. Mouth-tomouth resuscitation should not be attempted since it could cause the food to become lodged more firmly.

The maneuver itself is almost as simple as a "bear hug". Here's how it works.

The rescuer stands behind the victim, holding him with both arms around the waist, at or just above the belt line. The rescuer grasps one of his own wrists firmly, then squeezes hard while allowing the

victim to slump forward, head and arms dangling. This pressure below the diaphragm compresses the residual air trapped in the lungs causing the obstruction to pop out.

If the victim has collapsed, don't try to pick him up. If he is face down, the rescuer can straddle the buttocks; if face up, straddle the thighs. In either case, the rescuer places both hands, one on top of the other, just below the diaphragm and pushes sharply toward the victim's head. Repeat the procedure if necessary. If possible, a bystander should be ready to scoop up the ejected food so it isn't inhaled again.

To use the technique on infants, less pressure is required to dislodge the food. The handiest position might be to place the child across the knees so the leg presses the abdomen below the diaphragm as pressure is applied upwards along the lower part of the child's back.

If you are the victim and are alone, try anything that applies sharp force just below the diaphragm — falling into the edge of a table or sink or whatever might compress the abdomen enough to pop the obstruction

If you are the victim and are with someone, put your open hand to your throat to indicate that food is lodged there. This will keep the rescuer from giving you mouthto-mouth resuscitation or keep him from thinking you had heart trouble.

The project, consisting of a relief model and a writte presentation, was judged outstanding in high school competition. Research material for the project was obtained from Appalachian Power, America Electric Power and the American Coal Institute.

Kingsport, Appalachian employees retire WE REMEMBER

DEAKINS

"I have enjoyed working for such a good company as Kingsport Power, but I'm looking forward to being able to do those things that I have wanted to do and haven't had the time," said Maye B. Deakins, merchandise order and billing clerk senior, upon her retirement June 1.

A native of Knoxville, Maye attended East Tennessee State University and holds a BS degree in education from the University of Tennessee. She taught school for nine years in the Knox County and Kingsport City school systems before joining Kingsport Power as a billing clerk in 1943. Her entire career was spent in the Commercial and Customer Services Department.

Maye is a member of the First Broad Street United Methodist Church, Women's Republican Club and the Garden Club of Preston Forest. She and her husband Thomas both enjoy gardening and bridge as hobbies.

BUSKIRK

"I was born and raised in Logan, practically right at the door of Logan Plant. I saw the plant come and I saw it go. When I was a kid, there wasn't much power around Logan, but I remember them using oxen and mules to build the lines over the mountains around here. Only recently I watched the building of lines by helicopter," said John Barton Buskirk, who retired June 1 as a truck drivergroundman in Logan-Williamson Division. He adds, "Before coming to work for Appalachian, I worked for Hoosier Engineering Company and helped build the Logan/Sprigg 138 kv line. At the time, it was only the second line out of Logan."

Bart began his career in 1935 as a laborer at Logan Plant and worked there as a coal handler, turbine room man and turbine operator A. When the plant closed in 1961, he transferred to the-then Logan District as a groundman.

If health permits, he plans a trip to Florida this summer. In his spare time he enjoys hunting, gardening and landscaping. A deacon in the First Baptist Church of Logan, Bart and his wife Catherine have one child and one grandchild.

FARLEY

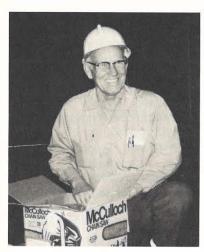

Kenneth Earl Farley, master maintenance man at Cabin Creek Plant, retired April 1 on permanent and total disability.

A native of Black Betsy, West Virginia, Ken had broken service before rejoining the company in 1936 as a laborer at Beckley. He was a field clerk before transferring to Charleston in March 1942 as a groundman. Two months later he moved to Cabin Creek as a laborer and has worked there as a maintenance man, mechanical maintenance helper A, mechanical maintenance man, and mechanical maintenance mechanic A.

In his spare time, Ken enjoys collecting and refinishing antiques. He and his wife Arabella have two children.

DINGESS

"We want to stay on our farm most of the time and maybe later travel down south or out west,"

said Norwood Dingess, utility foreman at Clinch River Plant, who retired June 1.

A native of Henlawson, West Virginia, Norwood joined Appalachian in 1941 as a coal handler at Logan Plant. He worked there as a turbine auxiliary equipment operator, turbine operator B and auxiliary equipment operator before transferring to Clinch River in 1958 as labor-janitor foreman.

During his career, Norwood worked for 12 different plant managers. The first hydrogencooled unit in the world, the famed Unit A, was installed at Logan Plant while he worked there.

Active in the Church of God, he has served as Sunday School superintendent, clerk, and adult teacher. He also enjoys gardening, hunting, and knife collecting. Norwood and his wife Ottie Marie have three children and nine grandchildren.

LEWIS

Martin Luther "Bob" Lewis, who retired May 1 as tractor operator at Cabin Creek Plant. claims to have been born on the job. His father once owned the property on which Cabin Creek is

Bob had broken service with the company before being rehired in 1943 as a storeroom attendant. During his career, he also worked as a laborer, utility man, utility operator, tripper operator coal conveyor operator.

Health will prevent Bob from doing strenuous work or extensive traveling during retirement, but he is active in politics and wants to spendmore time serving the Chelyan Nazarene Church, where he is a member. He also hopes to get in some fishing.

He was sergeant of arms of the American Legion for 12 years and was commander in 1973 and 1974.

Bob and his wife Frances Virginia will celebrate their 27th wedding anniversary in July.

Albertson

Guy Albertson, 79, retired meter serviceman A in the Welch area of Bluefield Division, died May 2. A native of Hall County, Georgia, he was employed in 1935 as a groundman and retired May 1, 1960. Albertson is survived by his widow Carrie, one daughter, three sisters, three brothers, one grandson and one great-grandson.

Adkins, performance engineer senior at John E Amos Plant, wrote "Annunciato Alarms for Multiple Conditions' "Improves 1300-mw Turbing Speed Governor" was writte by R. F. Shoemaker, plant per formance supervisor, R. W. Adkins and C. A. Powell, per formance engineers senior, all c Amos Plant. J. Tobie Eator transmission engineer senior i the General Office T&D Trans mission Section, Bluefield, wa the author of "Tripod Trans Elevator".

Lynchburg man prevents accident

Winebarger

Quick thinking on the part of Cur tis Winebarger, Lynchburg mete serviceman C, prevented wha could have been a costly acci dent recently.

According to Winebarger, "We had just pulled into a customer's parking lot when I stepped out o the truck and noticed a large de livery van moving backwards witl no one in it. I yelled to Richard (Richard O. Cash, meter service man A), 'look at that truck', and he responded, 'well, catch it if you can'. I took off after the trucl which, by this time, was really building up speed."

He continues, "Just at the bot tom of the hill was a new ca dealer with a whole lot of nev Lincolns parked right in the path of the speeding truck. As I caugh the truck, I jumped on the running board and was able to depress the brake with my hand until i came to a stop. The driver of the van as well as the car deale were most appreciative. I'm glac it worked out so well this time but I wonder if I would react the same if I were in that situation again."

More about our people

BIG SANDY

William G. George, son of Shift Operating Engineer Bobbie J. George, graduated magna cum laude from Morehead State University with a BA degree.

Suzanne Ferguson, daughter of Harold Ferguson, performance technician senior; Danita Ann VanSickle, daughter of L. Dan VanSickle, senior control technician; and Paul Clayton Jobe, brother of Billie J. Jobe, control technician, graduated from Louisa High School.

Susan Deanna Jessee, daughter of Art Jessee, performance supervisor, graduated from Vinson High School.

Keith Friley, brother of Charles Dyer, utility man B, was co-valedictorian of Boyd County High School and was the recipient of the annual \$5000 scholarship award from Armco. He is enrolled in the University of Kentucky Pharmaceutical School.

ROANOKE

Anderson

Tommy Anderson's chopper was judged best in all four categories in the recent Custom Car and Cycle Show sponsored by the Vinton Jaycees at the Roanoke Civic

Center. Anderson, Roanoke auto repairman A, won a small trophy for first place, large trophy for peoples' choice, and two plagues for best cycle and best paint.

Flight winners in the Roanoke Employees' annual golf tournament are (from left) Lewis Mills, Winston Carter, Wendell Reed and Johnny Wright.

Roanoke Employees' golf tourney held at Ole Monterey Golf Club

The Roanoke Employees' annual golf tournament was held May 3 at the Ole Monterey Golf Club with 57 participants. Aubrey Powell, General Office T&D Station, was chairman of the event, assisted by co-chairman W. C. Reed, General Office Accounting; R. D. Carson, Jr.; T. D. Carroll: L. M. Thomas and R. E. Bower.

Trophies were awarded the winner and first and second runnersup in each flight. The winners were:

Championship — Winston Carter, Ray Mullen and Jessie Chit-

First — Lewis Mills, Bob Bower and Dick Stinnett.

Second — Wendell Reed, Ronnie Kidd and Gene Hylton.

Third - Johnny Wright, E. W. Woody and Al Stebar.

Wally Jamison received a fire extinguisher for having the tee shot closest to the hole on no. 4. Ray Mullen received a tailgate mates kit for being closest to the hole on no. 8. Winston Carter was awarded a clock radio for being closest to the hole on no. 14, and Wendell Reed won a hot lather shaver for being closest to the hole on no. 18.

Annual report wins top award

The 1974 annual report of American Electric Power Company has won the top award in this year's nationwide annual report competition sponsored by Reddy Kilowatt, Inc.

Kidd voted most athletic

Lisa Kidd, sister of Ashland Custodian Danny Kidd and a guard on Russell High School's girls' basketball team, received several honors recently. She was named to the 63rd district all tournament team, 16th region all tournament team, state honorable mention, and the Ashland Daily Independent all area team (chosen by area coaches).

Lisa has participated in basketball for two years. During the regular season, she hit 31 per cent of her field goals, 50 per cent of her free throws and averaged four rebounds per game. She is also the team's playmaker.

She has been a member of the track team for five years and plays outfield on the newly organized softball team at Russell. Recently Lisa was selected the most athletic female in her senior class. She plans to further her education and athletic career at the University of Kentucky.

Kidd. Photo courtesy Ashland Daily Independent.

It's spring cleaning time for "Bluebird King" Garrison

If there are more bluebirds in Lynchburg now than there used to be, it may be partly due to the efforts of Hugh M. T. Garrison, stationman B on LTD leave, who has built and installed over 150 bluebird houses in the area.

He says, "The bluebird house in my yard was the first I built, over 15 years ago. I go to construction sites and ask for scraps of lumber. Each house turns out different, but as long as you have four walls, a roof and a floor, the birds are not particular. I put holes in the sides for air and in the bottom for drainage. Most important is a one-and-a-half inch hole for the birds to come and go. As long as the size of the hole is right, you will never get any starlings."

Hugh adds, "After I have built 20-25 houses, I load them in the car trunk and start on the 'bluebird trail'. I drive through the country and every time I see a bluebird, I stop and nail a house to a post or tree or whatever is available. I made one 'bluebird trail' that is at least 80 miles long and extends past Buena Vista."

Hugh and his wife Florence are among 150 members of the Lynchburg Bird Club. His interest in bluebirds has spread to the club, and last year they named him "bluebird king" and presented him with a citation. The Lynchburg and Roanoke Bird Clubs recently completed a joint project of placing bluebird houses the distance between Lynchburg and Roanoke.

Hugh says, "I have been giving

away bluebird houses for te years. But recently the Lync burg Bird Club started selling th houses for a money-makin project and now I give them al make."

He adds, "When I had my hea attack, a lady at Galts Mills aske if she could have the 30-3 houses I had on hand and use them to start her own bluebii trail on her farm."

Elaine Braxton, Charleston crec representative, scored well in th Women's International Bowling Cor ference Tournament in Indianapol recently. She rolled a 529 in th singles event and 517 in th doubles, including 200 games i both. She had 1,472 total pin: placing her in the money for the a events category. A consister bowler, Elaine bowls in three loc leagues and has averages of 17: 171 and 169.

Ed Kress makes clean sweep in Kentucky Power bowling tourney

Winners in the Kentucky Power employees' bowling tournament were (I. to Wayne Parker, Linda Eldridge, Clarice Wallace and Ed Kress.

Ed Kress made a clean sweep of the annual Kentucky Power employees' bowling tournament by winning the singles, 610; all events, 1203; and teaming with Clarice Wallace to win the doubles event, 1126.

Linda Eldridge placed second in the single event with 591, which was high total for the female bowlers. Wayne Parker was third with 590; followed by Alan Stennett and Sonny Runyon with 558

A close doubles event saw th first three teams separated b only four pins. Kress and Wallac nosed out Randy King and Lind Stinnett, 1125; Bronson Calliha and Pat Skaggs, 1122; and Dal Hughes and Harvey Ratliff, 1089

In the all events category, Parke was second with 1165, followe by Eldridge, 1124; and Callihar

Three certified as Emergency Medical Technicians

Cabin Creek employees will be well cared for if they become sick or injured at work. The plant now has three certified Emergency Medical Technicians (EMT's). Bill Shawver, plant performance engineer; Frank Kirk, control operator; and Roy Spencer, personnel supervisor, received their certifications as EMT's after extensive classroom studies and emergency room training at Montgomery General Hospital. Certification was given through the Emergency Health Services of the West Virginia State Department of Health.

The three enrolled for the EMT program almost out of necessity. Volunteer Fire Department. After local funeral homes stopped emergency medical techniques,

rendering ambulance service in the fall of 1974, the Fire Department decided to provide this service to the people of East Bank and Cabin Creek.

The Pryor Funeral Home in East Bank donated three well-used ambulances, but a state law which went into effect January 1, 1975, required that persons assigned to emergency vehicles transporting patients to a medical facility possess EMT certificates. After some coaxing, the hospital staff agreed to conduct the EMT program.

Classroom studies covered a broad spectrum of medical sub-All are members of the East Bank jects including a complete anatomy of the human body,

commonly encountered diseases and transportation of the sick and injured to a medical facility. In the emergency room training, the students checked patients for diagnostic signs and assisted in the treatment of patients as directed by the staff physicians and nurses.

After completion of the classroom work, the students were required to pass a written and practical examination. Spencer received a score of 94.5 per cent on the examination, the highest in the class of 30. A minimum score of 80 per cent is required for certification.

These employees continually put their training to good use as members of the East Bank Volunteer Fire Department Rescue Squad. Kirk boasts of having assisted in nine emergency child deliveries. He has had several years' experience as an emergency vehicle driver and is also fire chief.

The Fire Department now has a new, fully equipped emergency vehicle thanks to the handiwork of Shawver. Lacking the financial means to purchase a new vehicle outright, the department bought a Dodge Maxivan and converted the vehicle to an emergency transportation unit. Shawver has received numerous compliments for his excellent work in converting the vehicle.

Thirty seven members of the Charleston Retired Employees Association at their spouses attended a luncheon at the home of Anne Surber, retire Charleston transportation clerk. Mrs. Surber's feast included ham, chicke casserole, green beans, potato salad, sweet potatoes, homemade brea cake, coffee and tea.

These three Cabin Creek employees have been certified as Emergency Medical Technicians. From left, G. W. Shawver, Frank Kirk and Roy Spencer.
